** From June 01, 2009 to June 30, 2009

Annualized Return from June 01, 2009 to June 30, 2021

Composite Return (Net): 8.7%

Benchmark Return: 8.1%

Compliance Statement

NBP Fund Management Limited (NBP Funds) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. NBP Funds has not been independently verified.

Definition of Firm

NBP Funds is a Non-Banking Finance Company with a license to perform Asset Management Services as per the NBFC Rules, 2003. NBP Funds is a subsidiary of National Bank of Pakistan; the other main sponsor is Baltoro Growth Fund. NBP Funds' main area of business is Investment Management; more specifically floating and managing mutual funds and pension fund and providing investment advisory services.

Notes

1. This composite was created on October 24, 2012. The inception date of the composite is June 01, 2009. Presently NBP Government Securities Liquid Fund, NBP Money Market Fund and Money Market sub-Fund of NAFA Pension Fund comprise this composite.
2. Authorized investments of the Money Market Composite include short-term AAA rated Government Securities; deposits of AA and above rated banks, money market placements and commercial papers with remaining maturity of less than six months. The weighted average maturity of portfolios in this composite cannot exceed ninety days. No direct or indirect exposure to equities and corporate bonds is allowed[1]. In majority of constituents of the Composite, investment guidelines allow zero to hundred percent between Government Securities and private enterprise placements, mainly banks. However, in NGSLF a minimum of 70% allocation in short-term T-Bills is maintained. The minimum size of portfolio for inclusion in the composite is PKR 5 million.
3. The benchmark is 50% 3-Months T-Bills return and 50% three months term deposit rate of AA and above rated banks. The performance of the benchmark is based on gross returns and therefore not adjusted for any expenses or fees.
4. Policies regarding portfolio valuation, return calculation and compliant presentations are available upon request.
5. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months.
6. Complete list of composite descriptions is available upon request.
7. The portfolios in the composite follow International Accounting Standards (IASs), International Financial Reporting Standards (IFRS), NBFC Rules 2003, NBFC & NE Regulations 2008, Voluntary Pension System Rules 2005 and directives issued and enforced by SECP from time to time.
8. Composite dispersion is not mentioned where the number of portfolios in the composite is not more than five for a fully reported period.
9. The earnings of mutual funds and pension sub-fund in the composite are exempt from income taxes as per applicable tax law covered in Clause 99 and Clause 57-3 (viii), of Part I of the second schedule to the Income Tax Ordinance 2001, respectively. Similarly mutual funds and pension funds are exempt from with-holding taxes under the various sections of Income Tax Ordinance 2001.
10. The reported returns of the composite are net of management fee and all other expenses including sales tax, FED (up to June 30, 2016), and transactions expenses. Other expenses mostly include fees related to Trustee, SECP, audit, rating and listing, and SWWF provisioning. The management fee of the portfolios in the composite is up to 1.5% p.a. with a lower limit of 0.15% p.a presently. Cost of front end load if applicable is not included in the reported performance.
11. All investments in mutual funds and pension funds are subject to market risks. Please read the Offering Documents to understand the investment policies and risks involved. Past performance is not necessarily indicative of future results.

[1] In Money Market Sub-Fund of NAFA Pension Fund, investment in corporate debt securities with remaining maturity of up to six months is allowed.

2. Islamic Money Market Composite

February 28, 2018 to June 30, 2021

(Pakistani Rupees, PKR)

2. Authorized investments of the Islamic Income Composite include corporate sukuks, Shariah compliant Government Securities, Shariah compliant bank deposits, Shariah compliant money market placements, Shariah compliant commercial papers. Rating requirement for bank deposits is A-. For money market avenues the minimum rating requirement is AA-. The weighted average maturity cannot exceed five years. The investment guidelines of the composite mandate a certain minimum allocation in cash and near cash instruments. The minimum size of portfolio for inclusion in the composite is PKR 5 million.
3. The benchmark is 6-month average deposit rates of three A rated Islamic Banks/Islamic windows of conventional banks as selected by MUFAP from July 1, 2020. Previously, benchmark was 6-Months KIBOR till June 30, 2020. The performance of the benchmark is based on gross returns and therefore not adjusted for any expenses or fees.
4. Policies regarding portfolio valuation, return calculation and compliant presentations are available upon request.
5. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months.
6. Complete list of composite descriptions is available upon request.
7. The portfolio in the composite follow International Accounting Standards (IASs), International Financial Reporting Standards (IFRS), NBFC Rules 2003, NBFC & NE Regulations 2008 and directives issued and enforced by SECP from time to time. Further, the Firm's provisioning policy for debt securities as per SECP directive is available on the Firm's website.
8. Composite dispersion is not mentioned where the number of portfolios in the composite is not more than five for a fully reported period.
9. The earnings of mutual fund in the composite are exempt from income taxes as per applicable tax law covered in Clause 99 of Part I of the second schedule to the Income Tax Ordinance 2001. Similarly, mutual funds are exempt from with-holding taxes under the various sections of Income Tax Ordinance 2001.
10. The reported returns of the composite are net of management fee and all other expenses including sales tax, FED (up to June 30, 2016), transactions expenses, Trustee, SECP, audit, rating, listing fees and SWWF provisioning. The management fee on the fund in the composite is up to 1.0% p.a. with a minimum of 0.2% p.a. presently. Cost of front end load if applicable is not included in the reported performance.
11. Many corporate sukuks in Pakistan defaulted in 2008 amid severe liquidity and economic crises. Some of these sukuks in the Fund in the Composite have been fully provided for. Recoveries from some Sukuks have already started and further recoveries may be possible over the long horizon. Subsequently, two such Sukuks have been fully redeemed and rating of another security is now above investment grade.
12. All investments in mutual funds are subject to market risks. Please read the Offering Documents to understand the investment policies and risks involved. Past performance is not necessarily indicative of future results.

Compliance Statement

NBP Fund Management Limited (NBP Funds) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. NBP Funds has not been independently verified.

Definition of Firm

NBP Funds is a Non-Banking Finance Company with a license to perform Asset Management Services as per the NBFC Rules, 2003. NBP Funds is a subsidiary of National Bank of Pakistan; the other main sponsor is Baltoro Growth Fund. NBP Funds' main area of business is Investment Management; more specifically floating and managing mutual funds and pension fund and providing investment advisory services.

Notes

1. This composite was created on October 24, 2012. The inception date of the composite is May 01, 2006. Presently NBP Income Opportunity Fund and NBP Savings Fund comprise this composite.
2. Authorized investments of the Income Composite include corporate bonds (BBB- and above rated), Government Securities, bank deposits (A- minimum rating), money market placements (A- minimum rating), commercial papers (A- minimum rating), Margin Trading System (MTS) – financing against shares at pre-determined profit rates and spread transactions. The composite mandate requires a certain minimum allocation in cash and near cash instruments. The portfolios primarily hold Government Securities, bonds and banks deposits presently. The weighted average maturity of portfolios in the composite cannot exceed four years. The minimum size of portfolio for inclusion in the composite is PKR 5 million.
3. The benchmark is 6-Months KIBOR. The performance of the benchmark is based on gross returns and therefore not adjusted for any expenses or fees.
4. Policies regarding portfolio valuation, return calculation and compliant presentations are available upon request.
5. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months.
6. Complete list of composite descriptions is available upon request.
7. All portfolios in the composite follow International Accounting Standards (IASs), International Financial Reporting Standards (IFRS), NBFC Rules 2003, NBFC & NE Regulations 2008 and directives issued and enforced by SECP from time to time. Further, the Firm's provisioning policy for debt securities as per SECP directive is available on the Firm's website.
8. Composite dispersion is not mentioned where the number of portfolios in the composite is not more than five for a fully reported period.
9. The earnings of mutual funds in the composite are exempt from income taxes as per applicable tax law covered in Clause 99 of Part I of the second schedule to the Income Tax Ordinance 2001. Similarly mutual funds are exempt from with-holding taxes under the various sections of Income Tax Ordinance 2001.
10. The reported returns of the composite are net of management fee and all other expenses including sales tax, FED (up to June 30, 2016), transactions expenses, Trustee, SECP, audit, rating, listing fees and SWWF provisioning. The management fee on the portfolios in the composite is up to 1.0% p.a. with a minimum of 0.5% p.a. presently. Cost of front end load if applicable is not included in the reported performance.
11. Many corporate bonds in Pakistan defaulted in 2008 amid severe liquidity and economic crises. Certain holdings of the portfolios in the composite are now rated below the specified rating threshold, however all non-performing bonds in the composite have been fully provided. Subsequently, some bonds have been fully redeemed and rating of some of the bonds has already been upgraded to the requirement Composite definition. Recoveries from such non-performing securities have already started and further recoveries may be possible over the long horizon.
12. All investments in mutual funds are subject to market risks. Please read the Offering Documents to understand the investment policies and risks involved. Past performance is not necessarily indicative of future results.

Benchmark Return: 9.5%

Compliance Statement

NBP Fund Management Limited (NBP Funds) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. NBP Funds has not been independently verified.

Definition of Firm

NBP Funds is a Non-Banking Finance Company with a license to perform Asset Management Services as per the NBFC Rules, 2003. NBP Funds is a subsidiary of National Bank of Pakistan; the other main sponsor is Baltoro Growth Fund. NBP Funds' main area of business is Investment Management; more specifically floating and managing mutual funds and pension fund and providing investment advisory services.

Notes

1. This composite was created on October 24, 2012. The inception date of the composite is February 1, 2010. Presently seventy seven discretionary portfolios (investment directly in asset class) and plans (investment via mutual funds) comprise this composite.
2. Authorized investments of the Capital Protected Composite include low risk assets (Cash/ T-Bills/ very low risk money market/ income funds) and high risk assets (highly liquid shares in KSE 100 index/ Equity related mutual funds). The investment objective of the strategy is to benefit from the upside of the market along with capital

protection. The degree of capital protection and time at which capital protection is applicable varies. The minimum size of portfolio in the composite is PKR 1 million.

3. The benchmark is 6-Months KIBOR. The performance of the benchmark is based on gross returns and therefore is not adjusted for any expense or fees.
4. Policies regarding portfolio valuation, return calculation and compliant presentations are available upon request.
5. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months.
6. Complete list of composite descriptions is available upon request.
7. All portfolios in the composite follow International Accounting Standards (IASs), International Financial Reporting Standards (IFRS), NBFC Rules 2003, NBFC & NE Regulations 2008, and directives issued and enforced by SECP from time to time.
8. Composite dispersion is based on High-Low range where the number of portfolios is more than five for a fully reported period.
9. The earnings of mutual funds (for mutual funds based portfolios) in the composite are exempt from income taxes as per applicable tax law covered in Clause 99 of Part I of the second schedule to the Income Tax Ordinance 2001. Similarly mutual funds are exempt from with-holding taxes under the various sections of Income Tax Ordinance 2001. For non-mutual fund based portfolios, the applicability of with-holding taxes on any income, dividends, interest income and capital gains depends on clients' tax status.
10. The reported returns of the composite are net of management fee and all other expenses. The fee on the portfolios (investment directly in asset class) in the composite comprises of management fee and performance based fee. Where underlying authorized investments are mutual funds (plans), the management fee and other expenses which include sales tax, FED (up to June 30, 2016), SWWF provisioning, transaction / trading expenses, Trustee, SECP, audit, rating and listing fees of the underlying funds are applicable. The management fee of these mutual funds ranges from 0.5% p.a. to 2% p.a. presently. Cost of front end load if applicable is not included in the reported performance.
11. All investments in mutual funds are subject to market risks. Please read the Offering Documents to understand the investment policies and risks involved. Past performance is not necessarily indicative of future results. Capital protection is envisaged to be provided through the use of CPPI methodology (Constant Proportional Portfolio Insurance strategy) as detailed in Investor Agreements and not through an undertaking/ guarantee by the Management Company or a third party.

Compliance Statement

NBP Fund Management Limited (NBP Funds) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. NBP Funds has not been independently verified.

Definition of Firm

NBP Funds is a Non-Banking Finance Company with a license to perform Asset Management Services as per the NBFC Rules, 2003. NBP Funds is a subsidiary of National Bank of Pakistan; the other main sponsor is Baltoro Growth Fund. NBP Funds' main area of business is Investment Management; more specifically floating and managing mutual funds and pension fund and providing investment advisory services.

Notes

1. This composite was created on October 24, 2012. The inception date of the composite is February 01, 2007. Presently two mutual funds, NBP Balanced Fund and NBP Sarmaya Izafa Fund, and thirty seven discretionary portfolios and plans comprise this composite.
2. Authorized investments of the Multi Asset Composite include listed equities, Government Securities, bank deposits, corporate bonds, money market placements, commercial papers, Margin Trading System (financing for shares), mutual funds, and commodities. Presently there is no exposure to commodities and MTS. The minimum size of portfolio for inclusion in the composite is PKR 5 million.
3. The benchmark is 50% KSE 100 index and 50% 3 month KIBOR. The performance of the benchmark is based on gross returns and therefore not adjusted for any expenses or fees.
4. Policies regarding portfolio valuation, return calculation and compliant presentations are available upon request.
5. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months.
6. Complete list of composite descriptions is available upon request.
7. All portfolios in the composite follow International Accounting Standards (IASs), International Financial Reporting Standards (IFRS), NBFC Rules 2003, NBFC & NE Regulations 2008, and directives issued and enforced by SECP from time to time. Further, the Firm's provisioning policy for debt securities as per SECP directive is available on the Firm's website.
8. Composite dispersion is based on High-Low range where the number of portfolios is more than five for a fully reported period.
9. The earnings of mutual funds in the composite are exempt from income taxes as per applicable tax law covered in Clause 99 of Part I of the second schedule to the Income Tax Ordinance 2001. Similarly mutual funds are exempt from with-holding taxes under the various sections of Income Tax Ordinance 2001. For non-mutual fund based portfolios, the applicability of with-holding taxes on any income, dividends, interest income and capital gains depends on clients' tax status.
10. The reported returns of the composite are net of management fee and all other expenses include sales tax, FED (up to June 30, 2016), transactions expenses, fees of Trustee, SECP, audit, rating and listing, and SWWF provisioning. The management fee on the funds in the composite is 2.0% p.a. presently. Where underlying authorized investments are mutual funds, the fee includes fee and all other expenses of the underlying funds. The management fee of these underlying mutual funds ranges from 0.5% p.a. to 2% p.a. presently. Cost of front end load if applicable is not included in the reported performance.
11. Many corporate bonds in Pakistan defaulted in 2008 amid severe liquidity and economic crises. Certain holdings of the portfolios in the composite are now rated below the specified rating threshold, however all non-performing bonds in the composite have been fully provided. Subsequently, some bonds have been fully redeemed and rating of some of the bonds has already been upgraded to the requirement Composite definition. Recoveries from such non-performing securities have already started and further recoveries may be possible over the long horizon.

12. All investments in mutual funds are subject to market risks. Please read the Offering Documents to understand the investment policies and risks involved. Past performance is not necessarily indicative of future results. For especially equity related funds it is recommended that the investment horizon of the investors should be relatively longer.

Compliance Statement

NBP Fund Management Limited (NBP Funds) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. NBP Funds has not been independently verified.

Definition of Firm

NBP Funds is a Non-Banking Finance Company with a license to perform Asset Management Services as per the NBFC Rules, 2003. NBP Funds is a subsidiary of National Bank of Pakistan; the other main sponsor is Baltoro Growth Fund. NBP Funds' main area of business is Investment Management; more specifically floating and managing mutual funds and pension fund and providing investment advisory services.

Notes

1. This composite was created on October 24, 2012. The inception date of the composite is November 01, 2007. Presently NBP Islamic Sarmaya Izafa Fund, NBP Islamic Regular Income Fund, asset allocation plans under NAFA Islamic Active Allocation Fund-I and NAFA Islamic Active Allocation Fund-II (Fund of Funds), and forty-six discretionary plans comprise this composite.
2. Authorized investments of the Islamic Multi Asset Composite include Shariah Compliant listed equities, corporate sukuks (Islamic corporate bonds), Shariah Compliant Government Securities, Shariah compliant bank deposits, Shariah Compliant money market placements, Shariah Compliant equity funds, Shariah Compliant income funds and other Shariah Compliant avenues. The minimum size of portfolio for inclusion in the composite is PKR 5 million.
3. The benchmark is 50% KMI Index and 50% 3-Months KIBOR. The performance of the benchmark is based on gross returns and therefore not adjusted for any expenses or fees.
4. Policies regarding portfolio valuation, return calculation and compliant presentations are available upon request.
5. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months.
6. Complete list of composite descriptions is available upon request.
7. All portfolios in the composite follow International Accounting Standards (IASs), International Financial Reporting Standards (IFRS), NBFC Rules 2003, NBFC & NE Regulations 2008, and directives issued and enforced by SECP from time to time. Further, the Firm's provisioning policy for debt securities as per SECP directive is available on the Firm's website.
8. Composite dispersion is based on High-Low range where the number of portfolios is more than five for a fully reported period.
9. The earnings of the mutual fund in the composite are exempt from income taxes as per applicable tax law covered in Clause 99 of Part I of the second schedule to the Income Tax Ordinance 2001. Similarly mutual funds are exempt from with-holding taxes under the various sections of Income Tax Ordinance 2001.
10. The reported returns of the composite are net of management fee and all other expenses which include sales tax, FED (up to June 30, 2016), transactions expenses, fees relating to Trustee, SECP, audit, rating, and listing, and SWWF provisioning. The management fee of the funds in the composite ranges from 1.25% to 2.0% p.a. Where underlying authorized investments are mutual funds, the fee includes fee and all other expenses of the underlying funds. The management fee of these underlying mutual funds ranges from 0.5% p.a. to 2% p.a. presently. Cost of front end load if applicable is not included in the reported performance.
11. Many corporate bonds in Pakistan defaulted in 2008 amid severe liquidity and economic crises. Certain holdings of the portfolios in the composite are now rated below the specified rating threshold, however all non-performing bonds in the composite have been fully provided. Subsequently, some bonds have been fully redeemed and rating of some of the bonds has already been upgraded to the requirement Composite definition. Recoveries from such non-performing securities have already started and further recoveries may be possible over the long horizon.

12. All investments in mutual funds are subject to market risks. Please read the Offering Documents to understand the investment policies and risks involved. Past performance is not necessarily indicative of future results. For especially equity related funds it is recommended that the investment horizon of the investors should be relatively longer.

12. Equity Composite

February 01, 2007 to June 30, 2021

(Pakistani Rupees, PKR)

Financial Year	Composite Net Return	Benchmark Return	Composite 36 month Ann. St Dev	Benchmark 36 month Ann. St Dev	Internal Dispersion	Composites Assets at Period End (mln)	Composite % of Firm's Assets	No. of portfolios at period end
