DIRECTORS' REPORT

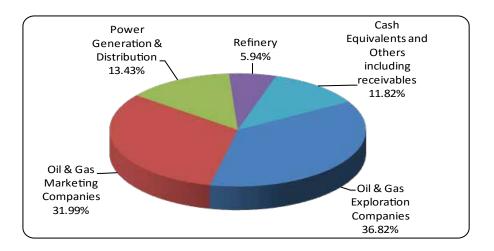

The Board of Directors of NBP Fullerton Asset Management Limited is pleased to present the reviewed financial statements of NAFA Islamic Energy Fund (NIEF) for the half year ended December 31, 2016.

Fund's Performance

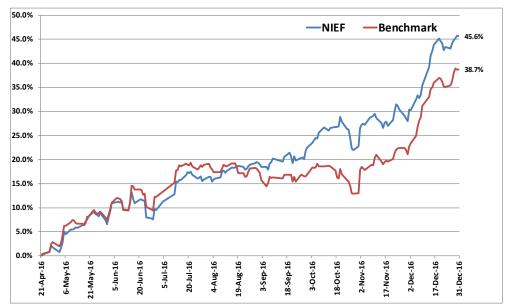

The Fund size of NIEF at the end of the period stood at Rs.2,711 million, 162% higher than at June 30, 2016. During the period the unit price of NAFA Islamic Energy Fund (NIEF) has increased from Rs. 10.5499 on June 30, 2016 to Rs. 14.0336 on December 31, 2016, thus showing an increase of 33.03%. The Benchmark (KMI-30 Index) increased by 23.63%. Thus, the Fund has outperformed its Benchmark by 9.40% during the period under review. Since inception (April 21, 2016), the unit price of the Fund has shown a growth of 45.64% as compared to 38.72% increase in its Benchmark. Thus, the Fund has outperformed its Benchmark by 6.92%. This performance is net of management fee and all other expenses.

During 1HFY17, riding on the positive momentum built on the Pakistan Stock Exchange (PSX) reclassification into MSCI Emerging Market and driven primarily by the price-to-earnings (PE) re-rating, the stock market delivered a handsome return of about 27%. Positives on the macroeconomic front such as improved economic growth outlook coupled with benign inflation reading and anchored near-term expectations; and stable exchange rate helped the market achieve historic highs. Domestic liquidity unleashed amid low interest rates that helped counter heavy foreign selling of USD298mn. Automobile Assembler, Engineering, Oil & Gas Marketing Companies, and Textile Composite sectors performed better than the market whereas, Power Generation & Distribution Companies and Fertilizer sectors lagged behind. Going forward, expected domestic and foreign liquidity flows amid low interest rates, expected amnesty scheme, and MSCI upgrade theme are likely to keep the market strong while, rising global policy uncertainty pose downside risk.

The Fund has earned total income of Rs.697.66 million during the period. After deducting expenses of Rs.24.74 million, the net income is Rs.672.92 million. The below chart presents the asset allocation of NIEF.

NIEF Performance versus Benchmark (Since Inception)

- **9.1** The Management Company has charged remuneration at the rate of 2 % per annum based on the average net assets for the period. The fee is payable to the Management Company monthly in arrears.
- **9.2** The Provincial Government of Sindh has levied Sindh sales tax at the rate of 13% on the remuneration of the Management Company through the Sindh Sales Tax on Services Act, 2011.
- **9.3** As per the requirements of the Finance Act, 2013, Federal Excise Duty (FED) at the rate of 16% on the remuneration of the Management Company has been applied effective June 13, 2013. The Management Company is of the view that since the remuneration is already subject to the provincial sales tax as explained in note 9.2, further levy of FED results in double taxation, which does not appear to be the spirit of the law.

On September 4, 2013, a Constitutional Petition was filed in the Honorable Sindh High Court (SHC) jointly by various asset management companies, together with their representative Collective Investment Schemes through their trustees, challenging the levy of FED.

During the period the SHC has passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) have been set aside. The Deputy Commissioner Inland Revenue, Zone II has filed a petition for leave to appeal against the SHC order with the Supreme Court of Pakistan.

Further with effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016. In view of the above, the Fund has discontinued making further provision in respect of FED on management fee from July 01, 2016. However, the provision made till June 30, 2016, aggregating to Rs. 0.583 million has not been reversed as the management believes that the Federal Government retains the right to appeal against the said order in the Supreme Court. Had the provision not been made, the Net Asset Value per unit of the Fund as at December 31, 2016 would have been higher by Re 0.003 (June 30, 2016: Re 0.006) per unit.

9.4 Last year, the SECP vide S.R.O No 1160(I) / 2015 dated November 25, 2015 introduced amendments in the NBFC regulations. As a result of these amendments, the Management Company of the Fund is entitled to reimbursement of fees and expenses incurred by the Management Company in relation to registrar services, accounting, operation and valuation services related to Collective Investment Schemes upto a maximum of 0.1% of the average annual net assets of the Scheme or actual whichever is less. The Management Company has charged operating expenses to the Fund at the rate of 0.1% per annum of the average annual net assets of the Fund for the period from July 1, 2016 to December 31, 2016 amounting to Rs 0.856 million (April 19, 2016 to June 30, 2016: Rs 0.182 million).

13 PROVISION FOR WORKERS' WELFARE FUND

The Sindh Revenue Board (SRB) had written to few mutual funds in January 2016 to register and pay Sindh Workers Welfare Fund (SWWF) for the accounting year closing on or after December 31, 2013. The MUFAP reviewed the issue and based on an opinion decided that SWWF is not applicable on mutual funds as they are not financial institutions as required by SWWF Act, 2014. The MUFAP wrote to the SRB that mutual funds are not establishments and are pass through vehicles hence, they do not have any worker and no SWWF is payable by them. The SRB responded back that as mutual funds are included in definition of financial institutions in the Financial Institutions (Recovery of Finance) Ordinance, 2001, therefore SWWF is applicable on mutual funds. The MUFAP has taken up this matter before the Sindh Finance Ministry to exclude mutual funds from SWWF.

In view of the above developments regarding the applicability of SWWF on CISs / mutual funds the MUFAP has recommended that the provision in respect of Sindh WWF should be made on a prudent basis on January 12, 2017 with effect from the date of enactment of the Sindh WWF Act, 2014 (i.e. starting from May 21, 2015).

Accordingly, the provision for SWWF is being made on a daily basis going forward.

The above decision was communicated to the SECP and the Pakistan Stock Exchange Limited on January 12, 2017 and the SECP vide its letter dated February 1, 2017 has advised the MUFAP that the adjustments relating to the above should be prospective and supported by adequate disclosures in the financial statements of the CISs/ mutual funds. Accordingly, the Fund has recorded this adjustment in its books on January 12, 2017.

If the provision for SWWF had been made on December 31, 2016 it would have resulted in a decrease in the net asset value per unit of the Fund by Re 0.0789.

14 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at December 31, 2016 and June 30, 2016.

15 TAXATION

The income of the Fund is exempt from income tax as per clause 99 of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed in cash to the unit holders. The management intends to distribute 90 percent of the Funds net accounting income earned by the year end as cash dividend to the unit holders. Accordingly, no provision in respect of taxation has been made in this condensed interim financial information.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16 NET ASSET VALUE PER UNIT

The net asset value (NAV) per unit, as disclosed in the condensed interim statement of assets and liabilities, is calculated by dividing the net assets of the Fund by the number of units in issue at the period / year end.

17 EARNINGS PER UNIT

20 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or liability can be settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are traded in an open market are revalued at the market prices prevailing on the reporting date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from the carrying values as the items are either short term in nature or periodically repriced.

Fair value of investments is determined as follows:

- Investments in government securities are valued on the basis of average rates of brokers as announced by the Financial Markets Association of Pakistan.
- The fair values of all other financial assets and financial liabilities of the Fund approximate their carrying amounts due to short term maturities of these instruments.

20.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Page 24

- Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities.
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at December 31, 2016, the Fund held the following financial instruments measured at fair value:

	As at December 31, 2016
