Pakistan Economy: Chronic Issue of Struggling Exports

Pakistan's macroeconomic prospects appear increasingly positive as reflected in rising GDP growth rate, low inflation & interest rates, healthy foreign reserve accumulation, improving energy supplies, ameliorating domestic security condition, stable political situation, continuing progress on CPEC related projects, and upbeat business sentiments. However, we flag obvious risks to the medium term sustainability of Balance of Payment (BoP) position stemming from rising trade imbalance which, if remain unaddressed, would threaten the current momentum. Despite low oil prices, country's imports have started picking up due to strong domestic demand while exports continue to remain lackluster and home remittances are tapering off.

In our view, stagnant exports have been Achilles heel of Pakistan economy causing repeated boom-bust cycles over the last few decades. Whenever the economy receives a demand-driven boost driven mainly by favorable external conditions, imports rise while exports remain moribund, putting an unbearable pressure on the external account. The above compels the government to adopt growth inhibiting tight monetary and fiscal policies.

Our exports have considerably underperformed those of our regional competitors i.e. India and Bangladesh over the last 16 years. For instance, Pakistan's exports have grown at a CAGR of 6.1%. During the same period, Indian and Bangladesh exports have risen by 13.1% and 11.8% respectively.

While fragile global economic conditions and soft international commodity prices are partly to blame, Pakistan's dismal export performance vis-à-vis regional peers over the last many years is the result of deep seated home grown issues such as energy shortages, an overvalued exchange rate, rising input costs, less than satisfactory law and order situation and stuck up refunds. The current highly competitive exports markets entail quality goods and services at competitive prices. In our view, structural issues such as low productivity both in terms of quantity and quality, limited value addition, lack of intellectual property rights, standardization and quality certifications, virtually non-existent FDIs in the manufacturing sector, insufficient investment in physical and human resources, and little focus on changing global demand trends and brand building have hampered any meaningful growth in exports.

Input Cost Comparison			
Particulars	Amount in USD		
	Pakistan	India	Bangladesh
Minimum Monthly Wage	133.7	143.5	67.3
Gas Rate / MMBTU	7.6	2.5	6.9

A case in point is the local textile sector, which is the mainstay of country's exports earnings and employment. Over the last 16 years, Pakistan's textile exports have grown at a CAGR of 5.4%. During the same period, Indian and Bangladesh textile exports have risen by 8.5% and 12.6% respectively. The divergent performance of our textile sector is explained by a host of structural factors such as stagnant cotton crop size over the last sixteen years when Indian crop size has more than doubled due to adoption of better quality seeds, production of low quality short-to-medium staple cotton that is used for making low value-added products such as bed-wear, tents, canvas, towels, denim, chinos and low quality T-shirts rather than long-staple cotton

used in making high quality textile products, excessive focus on production of cotton fabrics rather than high demand mixed apparels produced by our competitors and low investment in local brand building

Realizing higher export earnings would necessitate decisive policy actions such as measured devaluation of PKR and incentive package including tax relief, duty draw backs, timely refunds, un-interrupted availability of power at competitive rates and incentives for technological up gradation, capacity expansion, and human resource training & development. The resulting upswing in exports would support external account resilience, generate employment, and boost economic growth. This in turn would boost the performance of the stock market.

Stock Market Review

Local bourse exhibited robust performance during November, shrugging off experts' warning of sharp fall in risk assets in case of election victory of Republican candidate Donald Trump whose economic agenda envisages anti-globalization and anti-trade policies; and sell-off in emerging market bonds and equities led by foreign investors post surprise victory of Mr. Trump. Record foreign selling at the local bourses to the tune of US dollar 117 million during the month was absorbed by upbeat local investors mainly mutual funds and individuals. Buoyant local investors also ignored the rising noise in the domestic politics emanating from start of court proceedings related to alleged corruption charges against the PM and his family in the widely known Panama Leaks Case. We attribute resilience of the local market to abundant local liquidity and low exposure to US economy. Overall, during the month, the benchmark KSE 100 Index posted handsome return of around 6.8%, taking the CYTD performance to around 30%. To support the global oil prices, OPEC members reached an agreement for a production cut of 1.2 million barrel per day that would balance the global demand and supply situation earlier than previously expected. This bodes well for earnings outlook and performance of E&P sector and the stock market.

Turning to the sectoral performance during the month, Automobile Assemblers, Cement, Chemical, Engineering, Glass & Ceramics, and Textile Composite sectors performed better than the market while Oil & Gas Exploration, Power Generation & Distribution, Commercial Banks, and Fertilizer sectors lagged behind. Robust volumetric growth and improving earnings outlook amid weakening Japanese Yen against the US Dollar drew investors towards the Auto Assembler sector. Investors accumulated position in the Cement sector driven by healthy earnings prospects on the back of strong domestic sales numbers and sharp fall in global coal prices after the recent rally. Expectation of a hefty relief package by the government for the struggling exports sector revived investors' interest in the Textile sector. Unabated foreign selling capped the performance of Oil & Gas sector. Power Generation & Distribution sector lagged behind amid subdued earnings growth outlook.

While the stock market may depict volatility in the near-term, we hold positive outlook premised on reasonable stock market valuations as captured in P/E multiple of around 10.4, benign near-term inflation & interest rates, improving economic growth prospects, and paltry yield on the alternative fixed income avenues (PIBs, T-bills, Bank deposits).

Money Market Review

In its bi-monthly Monetary Policy Statement during the month, State Bank of Pakistan (SBP) maintained the policy rate at 5.75% citing manageable inflationary backdrop, macroeconomic stability, and healthy reserve accumulation. SBP highlighted improvement in resilience against external uncertainties as reflected in current level of foreign exchange reserves which stand at around USD 24 billion. However, sluggish exports sector performance and tapering remittances pose risk to the medium term sustainability of the BoP position that warrant decisive policy action. Inflation as measured by the CPI clocked in at 3.8% for November 2016 as compared to 4.2% last month. We expect inflation to pick up from these levels on the back of newfound recovery in global oil prices post agreement among the OPEC producers for production cut to prop up prices, measured PKR depreciation, and healthy growth in money supply.

Turning to the money market, during the month, SBP conducted two T-Bill auctions with a combined target of Rs. 500 billion and maturity of Rs. 489 billion. In the first T-Bill auction, Ministry of Finance (MoF) realized Rs. 306 billion against the target of Rs. 250 billion and maturity of Rs. 279 billion. Cut-off yields increased to 5.95% for 03 and 06 months, while bids in 12 months were rejected. The bid pattern skewed towards 03 months as compared to 06 months. In the second T-Bill auction, Ministry of Finance (MoF) realized Rs. 297 billion against the target of Rs. 250 billion and maturity of Rs. 210 billion. Cut-off yields for 03 and 06 months tenor were maintained at 5.95%; while the cut-off yield for 12 months tenor was aligned with 03 and 06 months tenor at 5.95%. The bid pattern remained skewed towards 03 months as compared to 06 and 12 months. However, during the month, the PIB auction was scrapped.

We have adjusted the portfolio of our money market and income funds based on the capital market expectations. We are closely monitoring the developments in the capital markets and will rebalance our portfolio accordingly.

WORKERS' WELFARE FUND (WWF)

The scheme has maintained provisions against Workers' Welfare Fund's liability to the tune of Rs. 69,380,310/-. If the same were not made the NAV per unit/last one year return of scheme would be higher by Rs. 0.0597/0.63%. For details investors are advised to read note 6.1 of the Financial Statements of the Scheme for the period ended September 30, 2016. From July 01, 2015 Workers Welfare Fund (WWF) is not being charged.

Name of the Members of Investment Committee

Dr. Amjad Waheed, CFA
Sajjad Anwar, CFA
Muhammad Ali Bhabha, CFA, FRM
Syed Suleman Akhtar, CFA

Notes: 1) The calculation of performance does not include cost of front end load.
2) Taxes apply. Further, tax credit also available as per section 62 of the Income Tax Ordinance, 2001.

Investment Objective

To provide stable income stream with preservation of capital by investing in AA and above rated banks and money market instruments.

Fund Manager Commentary

The Fund earned an annualized return of 5.5% during November 2016 versus the Benchmark return of 5.3%, thus registering an outperformance of 0.2% p.a. Since its launch in February 2012, the Fund has outperformed its Benchmark by 1.9% p.a. by earning an annualized return of 8.1%. This outperformance is net of management fee and all other expenses.

Being a money market scheme, the Fund has very restrictive investment guidelines. The authorized investments of the Fund include T-Bills, Bank Deposits and Money Market instruments. Minimum eligible rating is AA, while the Fund is not allowed to invest in any security exceeding six months maturity. The weighted average time to maturity of the Fund cannot exceed 90 days. The Fund is rated AA(f) by PACRA which denotes a very strong capacity to maintain relative stability in returns and very low exposure to risks.

Weighted average time to maturity of the Fund is 1 day. We will rebalance the allocation of the portfolio proactively based on the capital market outlook.

Notes: 1) The calculation of performance does not include cost of front end load.
2) Taxes apply. Further, tax credit also available as per section 62 of the Income Tax Ordinance, 2001.

Investment Objective

To provide competitive return from portfolio of low credit risk by investing primarily in Government Securities.

Fund Manager Commentary

During the month under review, the Fund has generated an annualized return of 4.7% against the benchmark return of 5.9%. Since its launch in July 2014, the Fund offered an annualized return of 9.3% against the Benchmark return of 7.3%, hence an underperformance of 2.0% p.a. This outperformance is net of management fee and all other expenses.

NAFA Government Securities Savings Fund (NGSSF) invests a minimum of 70% in Government Securities. The Fund invests a minimum 10% of its assets in less than 90 days T-Bills or saving accounts with banks, which enhances liquidity profile of the Fund.

As the asset allocation of the Fund shows, exposure in Government Securities was around 51% of the Total Assets and 53% of Net Assets at the end of the month with average Yield to Maturity of fund 6.4% p.a. Last one year allocation in Government Securities was around 77.2% of net assets. The weighted average time-to-maturity of the Fund is 0.23 year.

We will rebalance the allocation of the fund proactively based on the capital market outlook.

Sajjad Anwar, CFA
Muhammad Ali Bhabha, CFA, FRM
Syed Suleman Akhtar, CFA

Notes: 1) The calculation of performance does not include cost of front end load.
2) Taxes apply. Further, tax credit also available as per section 62 of the Income Tax Ordinance, 2001.

Investment Objective

To minimize risk, preserve capital and generate a reasonable return along with a high degree of liquidity from a portfolio primarily constituted of bank deposits and money market instruments.

Fund Manager Commentary

The Fund earned an annualized return of 5.1% during the month versus the Benchmark return of 6.1%. Since its launch in November 2009, the Fund offered an annualized return of 8.8% against the Benchmark return of 7.0%, hence an outperformance of 1.8% p.a. This outperformance is net of management fee and all other expenses.

NSPF is one of the highest rated income funds in the market due to its restrictive investment guidelines. The Fund is allowed to invest in Government Securities up to a maximum maturity of 3 years and also in debt securities with rating of A and above with a maximum remaining maturity of 1 year. The Fund invests 25% of its net assets in less than 90 days T-Bills or saving accounts with banks, which further enhances liquidity profile of the Fund.

The portfolio of NSPF is invested in Treasury bills, MTS, and bank deposits etc. The allocation in MTS is around 10% of net assets. The weighted average time to maturity of the entire Fund is around 16 days. Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.

We will rebalance the allocation of the portfolio proactively based on the capital market outlook.

Credit Quality of the Portfolio as of Nov 30, 2016 (% of Total Assets)

Notes: 1) The calculation of performance does not include cost of front end load.
2) Taxes apply. Further, tax credit also available as per section 62 of the Income Tax Ordinance, 2001.

Investment Objective

To seek preservation of capital and earn a reasonable rate of return in a Shariah compliant manner.

Fund Manager Commentary

During the month under review, the Fund posted an annualized return of 5.5% as compared to the Benchmark return of 4.4% thus registering an outperformance of 1.1% p.a. During FYTD, the Fund has posted 5.5% annualized return versus 4.5% by the Benchmark, hence an outperformance of 1.0% p.a. This outperformance is net of management fee and all other expenses.

The allocation in corporate Sukuks stood at around 1.3% of the net assets. Around 95% of net assets of the portfolio is allocated in bank deposits. The higher allocation in bank deposits is due to better yields as compared to other authorized alternative investment avenues.

The weighted average Yield-to-Maturity (YTM) of the Sukuk portfolio is around 4.6% p.a. and weighted average time to maturity is 1.9 years. The weighted average time to maturity of the Fund is 30 days.

We will rebalance the allocation of the fund proactively based on the capital market outlook.

Investment Objective
To seek maximum possible preservation of capital and a reasonable rate of return via investing primarily in money market & debt securities having good credit rating and liquidity.

Fund Manager Commentary
The Fund posted an annualized return of 6.1% in November 2016 in line with to the Benchmark return. During FYTD the Fund has outperformed its Benchmark by 0.8% by earning an annualized return of 6.8%. This outperformance is net of management fee and all other expenses.

The weighted average Yield to Maturity of the Fund is around 7.2% p.a. and that of the TFC portfolio is 6.1% p.a. The weighted average time to maturity of the Fund is around 60 days. The Fund's sector allocation is fairly diversified with exposure to Electricity, Banking and Financial Services sectors. TFC portfolio of the Fund is predominantly floating rate linked to KIBOR. However, since TFCs prices may go up or down, therefore, only investors with medium-term investment horizon are advised to invest in this Fund.

We will rebalance the allocation of the fund proactively based on the capital market outlook.

Custodian & Trustee:	MCB Financial Services Limited
Auditors:	Deloitte Yousuf Adil Chartered Accountants
Benchmark:	6-Month KIBOR
Fund Manager:	Muhammad Ali Bhabha, CFA, FRM
Minimum Subscription:	Growth Unit: Rs. 10,000/- Income Unit: Rs. 100,000/-
Asset Manager Rating:	AM2++ by PACRA (High Investment Management Standards)

Investment Objective

To earn a competitive rate of return while preserving capital to the extent possible by investing in liquid assets.

Fund Manager Commentary

The Fund posted an annualized return of 5.7% during November 2016 versus the Benchmark return of 6.1%. The annualized return during FYTD is 7.0% against the Benchmark return of 6.0%, hence an outperformance of 1.0% p.a. This outperformance is net of management fee and all other expenses.

As the allocation of the Fund shows, exposure in TFCs and Sukuks stands at 24.3% of net assets. All TFCs in the Fund are floating rate instruments linked to KIBOR.

The weighted average Yield-to-Maturity of the Fund is around 6.8% p.a. while its weighted average time to maturity is 0.7 year. This yield does not include potential recovery in fully provided TFCs (Face Value of around Rs. 309 million), which is potential upside for the Fund. Thus, the Fund is expected to perform well over the medium to long term horizon. However, since TFCs prices may go up or down, therefore, only investors with medium term investment horizon are advised to invest in this Fund.

We will rebalance the allocation of the fund proactively based on the capital market outlook.

Investment Objective

To generate income by investing in Debt & Money Market securities and to generate capital appreciation by investing in equity and equity related securities.

Fund Manager's Commentary

During the month under review, NAFA Asset Allocation Fund's (NAAF) unit price (NAV) increased by 5.9% while the Benchmark increased by 3.3%. Thus your Fund outperformed the Benchmark by 2.6%. Since inception on August 20, 2010 the Fund has posted 220.6% cumulative return, versus 100.4% by the Benchmark. Thus, to date the cumulative outperformance of your Fund stands at 120.2%. This outperformance is net of management fee and all other expenses.

NAAF started off the month with an allocation of around 59% in equities, which increased to around 61% towards the end of the month. NAAF outperformed the Benchmark in November as the Fund was underweight in select Commercial Banks, Power Generation & Distribution Companies, and Fertilizer sectors stocks which underperformed the market and overweight in Textile Composite, Oil & Gas Marketing Companies, Engineering, Cement, Automobile Assembler, and Automobile Parts & Accessories sectors stocks which outperformed the market. During the month, the allocation was increased primarily in Glass & Ceramics, Paper & Board, Textile Composite, Food & Personal Care Products, Chemicals, and Cement sectors, whereas it was reduced primarily in Automobile Assembler, Fertilizer, Power Generation & Distribution Companies, Automobile Parts & Accessories, and Oil & Gas Exploration Companies sectors.

Fund Manager:	Sajjad Anwar, CFA
Asset Manager Rating:	AM2++ by PACRA (High Investment Management Standards)

Investment Objective

The objective of NAFA Islamic Principal Protected Fund-I is to earn a potentially high return through dynamic asset allocation between shariah compliant Equities and Money Market investment avenues, while providing principal protection.

Fund Manager's Commentary

Since inception, NIPPF- I has generated a cumulative return of 40.8% versus 29.5% return of the Benchmark. The current equity exposure stands at around 45%. During the month, maximum multiplier stood a 2.2 whereas minimum multiplier was 1.7. Key holdings of the Fund belong to Cement, Oil & Gas Exploration Companies, and Oil & Gas Marketing Companies sectors. The Fund can invest up to 50% in equities subject to cushion availability. We are confident that the Fund will generate good returns considering the improved macroeconomic and political outlook and built in dynamic equity allocation mechanism of the Fund.

Investment Objective

The objective of the Fund is to provide investors an opportunity to earn attractive return from an actively managed portfolio of Shari'ah Compliant Equity Fund and Income Fund.

Fund Manager's Commentary

NAFA launched its NAFA Islamic Active Allocation Plan-I (NIAAP-I) in January, 2016 which is the first plan under NAFA Islamic Active Allocation Fund-I. The Active Allocation Plan is dynamically managed between dedicated equity related and Income schemes managed by NAFA based on the Fund Manager's outlook of the authorized asset-classes. The Plan is presently closed for new subscription. NIAAP-I has an initial maturity of two years.

Since inception, NIAAP-I has generated a return of 26.1% versus 23.8% return of the Benchmark. The current exposure in Equity Fund and Income Fund stands at 79.1% & 16.4% respectively. The Plan can invest up to 100% in equity funds. We are confident that the Plan will generate good returns considering the improved macroeconomic and political outlook and dynamic equity allocation mechanism of the Fund.

Benchmark:	Daily weighted return of KMI-30 Index & 6-month average deposit rates of three A rated Islamic Banks/Islamic windows of conventional banks as selected by MUFAP, based on Fund's actual allocation (which is combination of benchmarks of underlying schemes)
Fund Manager:	Sajjad Anwar, CFA
Asset Manager Rating:	AM2++ by PACRA (High Investment Management Standards)

Investment Objective

The objective of the Fund is to provide investors an opportunity to earn attractive return from an actively managed portfolio of Shari'ah Compliant Equity Fund and Income Fund.

Fund Manager's Commentary

NAFA launched its NAFA Islamic Active Allocation Plan-IV (NIAAP-IV) in September, 2016 which is the fourth plan under NAFA Islamic Active Allocation Fund-I. The Active Allocation Plan will be dynamically managed between dedicated equity related and Income schemes managed by NAFA based on the Fund Manager's outlook of the authorized asset-classes. The Plan is presently closed for new subscription. NIAAP-IV has an initial maturity of two years.

Since inception, NIAAP-IV has generated a return of 3.2% versus 2.3% return of the Benchmark. The current exposure in Equity Fund and Income Fund stands at 70.7% & 22.7% respectively. The Plan can invest up to 100% in equity funds. We are confident that the Plan will generate good returns considering the improved macroeconomic and political outlook and dynamic equity allocation mechanism of the Fund.

Minimum Subscription	Rs. 10,000/-
Asset Manager Rating:	AM2++ by PACRA (High Investment Management Standards)

Investment Objective

To earn a reasonable rate of return along with a high degree of liquidity by investing in short-term Shari'ah compliant banks deposits and money market/debt securities.

Fund Manager Commentary

During the month under review, the Fund has generated an annualized return of 4.2% against the benchmark return of 2.8%. The performance is net of management fee and all other expenses.

The Fund aims to consistently generate better return than the profit rates offered by Islamic Banks / Islamic windows of commercial banks, while also providing easy liquidity along with a high quality credit profile. The Fund is allowed to invest in shariah compliant Government Securities of maturity up to 3 years as well as Shariah compliant money market and debt securities of up to 2 years maturity rated AA- or better.

Around 98.4% of total assets of the portfolio is allocated in bank deposits. The higher allocation in bank deposits is due to better yields as compared to other authorized alternative investment avenues. The weighted average time-to-maturity of the Fund is 1 day.

We will rebalance the allocation of the Fund proactively based on the capital market outlook.

** effective from September 01, 2016; Previously Average of 6-Month deposit rates (A- & above rated Islamic banks)

Investment Objective

The objective of the Fund is to provide investors with long term capital growth from an actively managed portfolio of Shari'ah Compliant listed equities.

Fund Manager's Commentary

NAFA launched its second open-end Islamic Equity Fund namely NAFA Islamic Active Allocation Equity Fund (NIAAEF) in January, 2016. The aim of the Fund is to provide growth to the investment of Unit holders over the long-term in approved Shariah compliant equities.

NIAAEF started off the month with an allocation of around 87% in equities, which increased to around 88% towards the end of the month. NIAAEF outperformed the Benchmark in November as the Fund was underweight in select Power Generation & Distribution Companies, Oil & Gas Exploration Companies, Food & Personal Care Products, and Fertilizer sectors stocks which underperformed the market and overweight in select Textile Composite, Oil & Gas Marketing Companies, Engineering, Cement, Automobile Assembler, and Glass & Ceramics sectors stocks which outperformed the market. During the month, the allocation was increased primarily in Cement, Engineering, Glass & Ceramics, and Automobile Parts & Accessories sectors, whereas it was reduced primarily in Power Generation & Distribution Companies, Automobile Assembler, and Fertilizer sectors.

Investment Objective

The objective of NAFA Islamic Energy Fund is to provide investors with long term capital growth from an actively managed portfolio of Shari'ah Compliant listed equities belonging to the Energy Sector.

Fund Manager's Commentary

NAFA launched its third open-end Islamic Equity Fund namely NAFA Islamic Energy Fund (NIEF) in April, 2016. The aim of the Fund is to provide growth to the investment of Unit holders over the long-term in approved Shariah compliant energy stocks.

NIEF started off the month with an allocation of around 84% in equities, which decreased to around 80% towards the end of the month. NIEF underperformed the Benchmark in November as the Fund was overweight in select Energy sectors stocks which underperformed the market. During the month, the allocation was increased in Refinery sector whereas it was reduced in Oil & Gas Exploration Companies and Oil & Gas Marketing Companies sectors.
