## Fund Manager's Commentary

During the month under review, the Fund has generated an annualized return of 4.2% against the benchmark return of 4.7%. The performance is net of management fee and all other expenses.

The Fund aims to consistently generate to better return than the profit rates offered by Islamic Banks / Islamic windows of commercial banks, while also providing easy liquidity along with a high quality credit profile. The Fund is allowed to invest in shariah compliant Government Securities of maturity upto 3 years as well as Shariah compliant money market and debt securities of up to 2 years maturity rated AA- or better.

Around 99.0% of the portfolio is allocated in bank deposits. The higher allocation in bank deposits is due to better yields as compared to other authorized alternative investment avenues. The weighted average time-to-maturity of the Fund is 1 day.

We will rebalance the allocation of the Fund proactively based on the capital market outlook.
