Investment Objective

To seek preservation of capital and earn a reasonable rate of return via investing in money market and debt securities with investment-grade rating, CFS and spread transactions.

Fund Manager Commentary

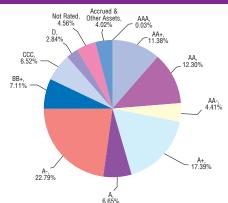

The Fund earned an annualized return of 3.08% during October, 2010. The return is low due to distressed selling of TFCs by some players and marking down the prices of some Sukuks of the Cement sector. The annual Yield to Maturity of your Fund is currently around 18.01% while that of TFC portfolio is around 22%. The weighted average maturity of your Fund is 2.47 years.

Going forward, we expect healthy returns on your Fund with a two to three year investment horizon because most TFCs are trading at a discount to their fair values, hence offering attractive yields.
