## Investment Objective

To seek maximum possible preservation of capital and a reasonable rate of return via investing primarily in money market & debt securities having good credit rating and liquidity.

## Fund Manager Commentary

The Fund posted an annualized return of 4.6% in October 2017 as compared to the Benchmark return of 6.2%. The reported return is net of management fee and all other expenses.

The weighted average time to maturity of the Fund is around 0.6 year. The Fund's sector allocation is fairly diversified with exposure to Banking and Financial Services sectors. TFC portfolio of the Fund is predominantly floating rate linked to KIBOR. However, since TFCs prices may go up or down, therefore, only investors with medium-term investment horizon are advised to invest in this Fund.

We will rebalance the allocation of the Fund proactively based on the capital market outlook.
