Fund Manager's Commentary

NAFA launched its first open-end Islamic capital protected fund namely NAFA Islamic Principal Protected Fund (NIPPF-1) this March. The aim of the Fund is to provide growth to the investment of Unit holders over the long-term in approved Shariah compliant equities and money market instruments while protecting initial investment value at Initial Maturity date, which is two years from launch date. The Fund is presently closed for new subscription.

Since inception, NIPPF- I generated a return of 0.6% versus 3.4% return of KMI-30 and 1.6% return of the benchmark. The Fund has gradually built its position in equities and its current stock exposure stands at around 37%. Key holdings of the Fund belong to Oil and Gas, Construction and Materials, and Electricity sectors. The Fund can invest up to 50% in equities. We are confident that the Fund will generate good returns considering the positive outlook of the market and built in dynamic equity allocation mechanism of the Fund.
