NSPF is one of the highest rated income funds in the market. It cannot invest in any avenue which has more than six months maturity, nor can it invest in debt securities and Equities. Moreover, it cannot invest in money market instruments below credit rating of 'AA-'. The investment value of the Fund has not declined on any day since its launch in November 2009.

The portfolio of NSPF is fairly diversified among Treasury bills, Money market placements, MTS and bank deposits etc. The allocation in T-Bills is around 44.41%, placements with DFIs is around 14%, MTS is around 22% and allocation in Money Market Placements issued by AA+ and AA rated entities is around 8% with asset class maturities at 60 days, 43 days, 60 days and 68 days respectively. The weighted average maturity of the entire Fund is around 53 days.

Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.

We are striving to improve the performance of the Fund.
