Fund Manager Commentary

The Fund posted an annualized return of 8.3% during July 2015 versus the Benchmark return of 7.0%. The annualized return during CY 15 is 11.6% against the Benchmark return of 7.8%, hence an outperformance of 3.8% p.a. This outperformance is net of management fee and all other expenses.

As the allocation of the Fund shows, exposure in TFCs and Sukuks stands at 22.6%. All TFCs in the Fund are floating rate instruments linked to KIBOR.

The weighted average Yield-to-Maturity of the Fund is around 8.3% p.a. while its weighted average time to maturity is 0.9 years. This yield does not include potential recovery in fully provided TFCs (Face Value of around Rs.310 million), which is potential upside for the Fund. Thus, the Fund is expected to perform well over the medium to long term horizon. However, since TFCs prices may go up or down, therefore, only investors with medium term investment horizon are advised to invest in this Fund.

During the month, SBP maintained the Discount Rate in its Monetary Policy announcement on July 25, 2015, which was in line with market expectation. We will rebalance the allocation of the fund proactively based on the capital market outlook. As per the latest amendments in tax laws the Fund is not required to provide for Workers Welfare Fund (WWF) from July 01, 2015 that will improve the performance of the Fund.
