2.4 Risk Disclosure

Investors into NCF must realize that all investments in mutual funds and securities are subject to market risks. Our target return / dividend range cannot be guaranteed and it should be clearly understood that the portfolio of NAFA Cash Fund is subject to interest rates and money market fluctuations and other risks inherent in all such investments. The risk emanates from various factors that include, but are not limited to:

1. **Credit Risk** - Credit risk is comprised of default risk, credit spread risk and downgrade risk. Each can have a negative impact on the value of a fixed-income security including money market instruments.

- a) **Default risk** is the risk that the issuer will not be able to pay the obligation, either on time or at all.
 - b) **Credit spread risk** is the risk that there will be an increase in the difference between the return/mark-up rate of an issuer's bond and the return/mark-up rate of a bond that is considered to have little associated risk (such as a government guaranteed bond or treasury bill). The difference between this return/mark-up rates is called a "credit spread". Credit spreads are based on macroeconomic events in the domestic or global financial markets. An increase in credit spread will decrease the value of fixed income securities including money market instruments.
 - c) **Downgrade risk** is the risk that a credit rating agency, such as PACRA or JCR-VIS or any other reputed international credit rating agency, will reduce the credit rating of an issuer's securities. Downgrades in credit rating will decrease the value of those fixed income securities including money market instruments.
2. **Currency Risk:** The Fund may be affected favorably or unfavorably by changes in currencies and exchange control regulations. The income earned by NCF may also be affected by fluctuations in foreign exchange rates.
3. **Derivative Risk** - Derivatives may be used to limit or hedge potential losses associated with capital markets and return/mark-up/coupon rates. This process is called "hedging". Derivatives may also be used for non-hedging purposes - to reduce transaction costs, achieve greater liquidity, create effective exposure to financial markets or increase speed and flexibility in making portfolio changes. Any use of derivatives has risks, including:
- a) The hedging strategy may not be effective.
 - b) There is no guarantee that a market will exist when a Fund wants to buy or sell the derivative contract.
 - c) A large percentage of the assets of a Fund may be placed on deposit with one or more counter parties, which exposes the Fund to the credit risk of those counterparties.
 - d) There is no guarantee that an acceptable counterpart will be willing to enter into the derivative contract.
 - e) The counter-party to the derivative contract may not be able to meet its obligations.
 - f) The Exchanges on which the derivative contracts are traded may set daily trading limits, preventing a Fund from closing out a particular contract.
 - g) If an Exchange halts trading in any particular derivative contract, a Fund may not be able to close out its position in that contract.
 - h) The price of a derivative may not accurately reflect the value of the underlying security or index.
4. **Interest Rate Risk** - Debt securities including money market instruments generally pay a fixed rate of coupon/mark-up. The value of the fund, due to its holdings in debt securities including money market instruments, will rise and fall as market interest rates change. For example, when interest rates fall, the value of an existing bond will rise because the coupon rate on that bond is greater than prevailing return/mark-up rates and vice versa.

- 5. Government Regulation Risk** - Government policies or regulations are more prevalent in some sectors than in others. Funds that invest in these sectors may be affected due to change in these regulations or policies, which directly or indirectly affect the earnings and/or the cash flows and/or any governmental or court orders restraining payment of capital, principal or income.
- 6. Voluminous Purchase/Redemption of Fund Units Risk** - Any significant transaction made by any investor could significantly impact a Fund's cash flow. If the third party buys large amounts of Units of a Fund, the Fund could temporarily have a high cash balance. Conversely, if the third party redeems large amounts of Units of a Fund, the Fund may be required to fund the redemption by selling securities at an inopportune time. This unexpected sale may have a negative impact on the performance of the investment.
- 7. Counterparty Risk** – The risks with repo / reverse repo / money market placement transactions are that the other party may default under the agreement or go bankrupt. In a reverse repurchase transaction, the Fund may be left holding the security and may not be able to sell it at the same price it paid for it, plus return/mark-up, if the market value of the security has dropped. In the case of a repurchase transaction, the Fund could incur a loss if the value of the security sold has increased more than the value of the cash or collateral held.
- 8. Other Risks Involved:**
- a) Mismanagement of the investee company, third party liability whether through class action or otherwise or occurrence of other events such as strikes, fraud etc., in the company in which the investment is made.
 - b) Break down of law and order, war, terrorist activity, natural disasters etc.
 - c) Senior rights of some creditors over other creditors in the event of winding up.

2.4.1 Prices of Units of the Fund and income from them may go up or down.

- (iii) Class “B” Units, which shall be offered and issued after the Initial Period of Offer.

4.2 Types of Units

- 4.2.1 An investor at the time of opening an account shall select the type(s) of Unit(s) in which investor wishes to invest in, namely Growth Unit and/ or Income Unit.
- 4.2.2 The Management Company may from time to time amend the minimum amount of initial investment that is required to open and maintain an account with the Transfer Agent. At the initial offer and later on, the minimum amount of investment to open and maintain an account is Rs. 10,000 Growth Units and Rs. 100,000 for Income Units. The Management Company reserves the right to alter the minimum amounts stated hereinabove. In the event the investment in any investor’s account falls below the minimum level as a result of revised limits, changes in valuation, redemption, transfer or transmission, the Management Company may instruct the Transfer Agent to close such account by redeeming the Units in such accounts at the close of any accounting period at the price applicable to redemptions on such date. For Income Units, in case the amount falls below Rs. 50,000, funds may be transferred to Growth Units.

Following the minimum initial investment, Unit Holders of NAFA Cash Fund may add a minimum of Rs. 1,000 per transaction at their convenience. Units of NCF (including fraction thereof) shall be issued against the amount received from the Unit Holders in accordance with the procedure laid down in this Offering Document. The Management Company may alter the minimum amount required for opening, maintaining or adding to the account. Provided an upward change for maintaining the account or adding funds the Management Company shall give seven days notice to Unit Holders.

- (i) **Growth Units:** The Unit value grows in line with the growth in the NAV, and the Unit Holders shall have the option to receive distribution income in the form of cash or bonus units.
- (ii) **Income Units:** The Unit Holders, based on their own consent & instructions and with prior intimation to the Management Company, exercise the option of redeeming a certain number of Units for fulfilling their requirement of a certain cash amount at Regular Intervals (i.e. monthly, quarterly, semi-annually and annually). Such instructions shall be given in writing at the beginning of each regular interval or at the time of purchase of Units.

4.2.3 The Management Company shall, on the 25th of every Regular Interval, calculate the redemption value to be paid to the Income Unit Holder(s) based on the Redemption Price of that day.

4.2.4 Depending upon the instructions given by the Income-Unit Holders, the Income Units are further classified into two types:

- (a) **Flexible Income Units** – The Flexible Income Unit Holders at the time of purchase or beginning of an interval authorize the Management Company to decide the quantum of part redemption of their unit holdings at the end of every regular interval based on the performance (NAV growth) of the Fund during that regular interval.

The amount of redemption value so derived shall be transferred to designated bank account by way of transfer of funds to the designated bankers within six (6) working days of the redemption without recovering any Back End Load.

- (b) **Fixed Income Units** – The Fixed Income Unit Holders at the time of purchase or beginning of an interval specify a fixed cash amount required by them at regular intervals, and authorize the Management Company to redeem (at the prevailing NAV) such number of units from their holding that in rupee terms is equivalent to the specified fixed amount required at the end of every regular interval.

The amount of redemption value so derived shall be transferred to designated bank account by way of transfer of funds to the designated bankers within six (6) working days of the redemption. As a result of operation of this Clause, the capital invested may deplete in case sufficient returns are not earned to cover the amount of Relevant Interval payment required by the Unit Holder.

4.2.5 The Transfer Agent shall send an account statement to the Unit Holder each time there is an activity in the account. Such statements or report shall be sent by electronic means or ordinary mail to the Unit Holder's address recorded in the register.

4.2.6 In case the Management Company announces a suspension of further issue of Units of NCF, it may allow existing Unit Holder to continue acquiring Units out of any dividend declared on Units held under this option.

4.2.7 The Unit Holder may withdraw funds from the option at any stage by filling out and lodging the prescribed form to the Distributor/Investment Facilitator. However, in the event the principal value of the account goes below the prescribed amount as a result of loss in valuation or as a result of application of Clauses 4.2.4(a) & 4.2.4(b) above, the minimum value requirement as stated herein above shall not apply to that extent. In such an event, the Unit Holder is free to discontinue the option or convert the remaining Units into Growth Units.

4.2.8 In the event of winding up of NCF, the Units standing to the credit of Subscriber shall be dealt with the same manner as the rest of the Units in NCF.

4.2.9 Certificates representing Units purchased under the Income Units shall not be issued. However, the Transfer Agent shall send directly to each Unit Holder an account statement each time there is a transaction in the account.

- 4.2.10 All Units and fractions thereof (up to four or more decimal places) represent an undivided share in the Scheme and rank pari passu as to their rights in the net assets, earnings, and the receipt of the dividends and distributions. Each Unit Holder has a beneficial interest in NCF proportionate to the Units held by such Unit Holder. However, while maintaining the integrity of each Unit's pari passu rights, for the convenience of investors, the Management Company may issue Units with different options for different arrangements as chosen by the investor from time to time. Consequently, the Units issued with differing arrangements may have differing respective applicable quantum of the Front-end Load added to the NAV for determining the Offering Price thereof and differing respective applicable quantum of Back-end load deducted from the NAV for determining the Repurchase Price.
- 4.2.11 Unit Holders may obtain certificates representing the Growth Units they hold by paying a nominal fee of Rs. 25/- per certificate, subject to revision from time to time by the Management Company. Requests for redemption, transfer or transmission of Units shall be processed only on the production of the certificate(s) if issued earlier. In the event of loss or defacing of certificates, the process shall be carried out subject to appropriate safeguards to the satisfaction of the Management Company / Trustee / Transfer Agent and the associated cost if any will be borne by the Unit Holder.
- 4.2.12 Registration of Pledge / Lien - The Transfer Agent may register a pledge / lien on any Units in favor of any third party with the specific authority of the Management Company. The Management Company may announce a suspension or deferral of redemption. Such a measure shall be taken to protect the interest of the Unit Holders in the event of extraordinary circumstances or in the event redemption requests accumulate in excess of ten percent (10%) of the Units in issue. Details of the procedure are given in Clause 4.8 herein above. Such suspension or queue system shall end on the day following the first Business Day on which the conditions giving rise to the suspension or queue system, shall in the opinion of the Management Company, have ceased to exist and no other condition under which suspension or queue system is authorized under the Deed exists.
