 To minimize risk, preserve capital and generate a reasonable return along with a high degree of liquidity from a portfolio primarily constituted of bank deposits and money market instruments.

Fund Manager Commentary
 The Fund earned an annualized return of 8.9% p.a. during the month versus the Benchmark return of 7.9% p.a. Since its launch in November 2009, the Fund has offered an annualized return of 8.9% p.a. against the Benchmark return of 7.7% p.a., hence an out-performance of 1.2% p.a. This out-performance is net of management fee and all other expenses.

The Fund is allowed to invest in Government Securities up to a maximum maturity of 3 years and also in debt securities with rating of A and above with a maximum remaining maturity of 1 year. The Fund invests 25% of its net assets in less than 90 days T-Bills or saving accounts with banks, which further enhances liquidity profile of the Fund.

The portfolio of NMAF is invested in TDRs, T-Bills and bank deposits. The weighted average time to maturity of the entire Fund is around 25 days. Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.

We will rebalance the allocation of the Fund proactively based on the capital market outlook.
