Fund Manager Commentary
NBP Funds launched its third open-end Islamic Equity Fund namely NBP Islamic Energy Fund (NIEF) in April, 2016. The aim of the Fund is to provide growth to the investment of unit holders over the long-term in approved Shariah Compliant energy stocks.

NIEF started off the month with an allocation of around 93% in equities, which was decreased to 92% towards the end of the month. NIEF underperformed the Benchmark in July as the Fund was overweight in select Energy sectors stocks which underperformed the market. During the month, the allocation was increased primarily in Oil & Gas Exploration Companies whereas it was reduced in Power Generation & Distribution Companies and Oil & Gas Marketing Companies sectors.
