**Investment Objective**  
To earn a reasonable rate of return along with a high degree of liquidity by investing in short-term Shari’ah Compliant bank deposits and money market/debt securities.

**Fund Manager Commentary**  
During the month, the Fund generated an annualized return of 5.2% p.a. against the Benchmark return of 3.4% p.a. Since its launch in January 2016, the Fund offered an annualized return of 6.1% p.a. against the Benchmark return of 4.0% p.a., hence an out-performance of 2.1% p.a. This out-performance is net of management fee and all other expenses.

The Fund aims to consistently generate better return than the profit rates offered by Islamic Banks / Islamic windows of commercial banks, while also providing easy liquidity along with a high-quality credit profile. The Fund is allowed to invest in Shariah Compliant Government Securities of maturity up to 3 years as well as Shariah Compliant money market and debt securities of up to 2 years maturity rated AA- or better.

Around 31% of net assets of the portfolio are allocated in bank deposits. The higher allocation in bank deposits is due to better yields as compared to other authorized alternative investment avenues. The weighted average time-to-maturity of the Fund is 34 days.

We will rebalance the allocation of the Fund proactively based on the capital market outlook.
